

Calendar

Keep track of events

- Helps manage activities
 - Sends Notifications to remind you
- Can be shared to coordinate schedules with 2 or more people
- Uses data from Contacts and the web
 - Displays Birthdays and Anniversaries from Contacts
 - Displays Holidays

Calendar

Know where you need to be and what to do

- Manage multiple Calendars, color coded
- Control over settings and defaults
- Can send and manage invitations
- View Year, Month, Week, Day
- Stores history for referencing later
- Searchable, e.g. When was my last Doctors Appointment
